portable
lamp

by Tom Chung

MUUTO

“My idea for Piton started from the desire to create a rechargeable portable lamp that could be adapted in a multitude of ways while functioning in various environments. I wanted the design to fulfill the inherent needs of a torch; providing security and warmth while clearly illuminating your field of vision. In short, the Piton Portable Lamp seeks to encourage its user to explore their surroundings”

— Tom Chung on the design

Playfully portable

Piton is an untraditional take on the battery-powered portable lamp, playfully referencing the archetypal flashlight designed by Toronto-based industrial designer Tom Chung. Its refined materiality enhances its elegant form and distinct functionality, giving the design an unexpected allure. Inspired by the durable performance of outdoor gear, Piton is named after a tool frequently used in mountain climbing.

A truly versatile ambient light, Piton easily moves around the home, from room to room, even outside to light up an outdoor dining table by night. It is an adaptable and multi-functional product that can be used lying, standing, tilting on a shelf or suspended, depending on the space or spot you want to illuminate, effortlessly moving between interior and exterior.

The portable lamp has 6 hours of battery life on 100% brightness and 13,5 hours on 50% brightness. Its body is made of anodized extruded aluminum with a tactile finish, while the shade is manufactured by injection-molding plastic, fitted with an integrated and replaceable LED light bulb.

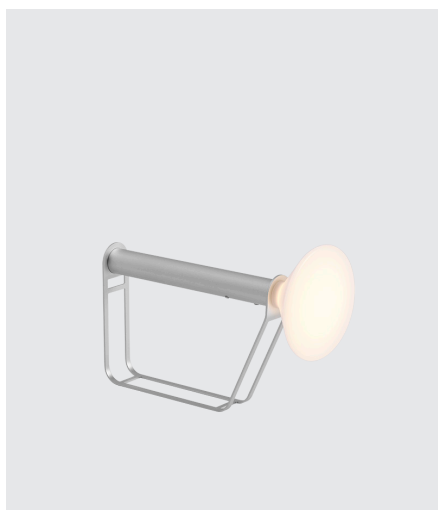

About Tom Chung

Tom Chung is an independent industrial designer who established his eponymous studio in 2016. Based in Toronto, the studio maintains a focus on industrial objects and interior spaces. Forming a unique design process that combines contemporary culture and local industry, the studio creates context driven industrial design pieces for domestic, institutional, and public environments.

About Muuto

Muuto is rooted in the Scandinavian design tradition characterized by enduring aesthetics, functionality, craftsmanship and an honest expression. By expanding this heritage with forward-looking materials, techniques and bold creative thinking, our ambition is to deliver new perspectives on Scandinavian design.

Materials

Body in anodized extruded aluminum. Lamp shade in injection molded plastic.
Woven fabric USB-C cable.

Colors

Black
Aluminum

Prices

€ 235 / £ 215 / USD 375 / DKK 1.695 / SEK 2.295
